### Green Map Information

**To be considered at this time, we require that you have a storefront in Seattle, and that you sell foods or goods.**

**Brief** summary of what you do, and why you are 'green': (i.e. Independent coffee shop offering fair trade coffee, organic snacks, an option for real dishes instead of paper, and a full recycling and composting program)

**What category best fits your business?** (see page footer for link to our official icons and definitions)

**Please list environmental or social awards your business has won:**

e.g. fair-trade, organic, envirostar (how many stars?), etc.

**Sustainability criteria for your business, or products you sell:**

- Use environmentally sound and innovative methods of production and operation
- Promote and/or educate the public about sustainable business strategies
- Are proactive in preventing pollution and waste; have conservation measures in place for the usage of water, energy and waste; and/or purchase recycled products
- Demonstrate a high level of commitment to worker safety, equity and justice

**Are you local?**

- Strive to source goods **locally** in a socially and environmentally responsible manner
- Locally Owned (e.g. full decision making lies with its owner(s), base of operations within WA, private - not publicly traded).
